Cardiovascular disease and related chronic diseases are now recognized as the leading causes of death globally. The worldwide personal and societal costs related to diseases of the vascular system are enormous. This poses a significant challenge to all health care providers.

Arresting the world’s leading killer requires new knowledge and the development of innovative new approaches and possible cures. Partnership between the Boardroom and the Bedside is essential for fewer procedures, shorter hospital stays, faster recoveries and better outcomes for our patients. Cardiovascular Nurses play a key role in this matter. The connected work of nurse educators, researchers and bedside nurses translates these ideas to actual practice.

This year’s theme has geared up for the cardiovascular nurse capacity for healthcare transformation. Responding to the different challenges in the health care set up by bringing evidence-based quality improvement care that is effective, safe, and efficient and bringing it to the heart of patient care: The bedside.

General Objective:

The endeavor is designed to instill among the participants the importance of: Bringing Cardiovascular Innovations to the Heart of Patient Care. Likewise it will widen the perspective and expertise of nurse practitioners to latest advancements presents the varied fields of cardiology.

Specific Objectives:

• Describe the current trends in cardiovascular care.

• Describe the development of innovative approaches in the care of cardiovascular patients.

• Discuss the Emerging Trends in Education, Research and Policy and how it impacts our practice.

• Discuss the impact of latest advancements in cardiovascular practice to the nursing profession and in the delivery of care.
16th Annual Convention
From Boardroom to Bedside: Bringing Cardiovascular Innovations to the Heart of Patent Care

Keynote

Alex T. Junia, MD
President, Philippine Heart Association

Session 1: The Boardroom: Where it all begins

• Understanding how Emerging Trends in Education and Research defines our Clinical Practice

  Leonora N. Collantes, RN, MAN
  Head, Nursing Care, St. Lukes Medical Center Quezon City

• Webinar: 3M

Session 2: The Bedside: From mechanisms to Policy

• IABP Counterpulsation therapies to enhance hemodynamic support.

  Clifford M. Curameng, MD
  Cardiologist

• Webinar: 3M

Session 3: The Heart: Putting the pieces together

• The Impact of Blowing Bubbles to Pediatric Postoperative Outcomes

  Marjorie Andres
  Clinical Instructor
  Philippine Heart Center
16th Annual Convention
From Boardroom to Bedside: Bringing Cardiovascular Innovations to the Heart of Patent Care

Session 1: The Boardroom: Where it all begins
- Understanding how Emerging Trends in Education and Research defines our Clinical Practice
- Webinar

Session 2: The Bedside: From mechanisms to Policy
- IABP Counterpulsation therapies to enhance hemodynamic support.
- Webinar

Session 3: The Heart: Putting the pieces together
- The Impact of Blowing Bubbles to Pediatric Postoperative Outcomes
**Proposed Budget for Scientific Committee**
